SKILLS

- **Languages:** C++, JavaScript, C, PHP
- **Frameworks:** HTML and CSS, Bootstrap, NodeJS, React
- **Tools/Platforms:** MySQL, MongoDB
- **Soft Skills:** Teamwork, Persistence, Adaptability, Multitasking

TRAINING

Data Structures Algorithms – Cipher School | [Certificate](#) July 2025
Designed and implemented a console-based dice game using C++.
Applied core DSA concepts including conditional logic, loops, functions, and random number generation.

PROJECTS

Secure File Management System | July 2025
Developed a secure file management system in C++ with user authentication and role-based access control
Implemented file operations including create, read, write, and delete with strict permission checks.
Applied data structures to manage users, access privileges, and file metadata efficiently.
Integrated basic security mechanisms such as input validation and controlled resource handling to prevent unauthorized access.

CERTIFICATES

- Privacy and Security in Online Social Media | [Certificate](#) October 2025
- ChatGPT Made Easy: AI Essentials for Beginners by Udemy | [Certificate](#) September 2025
- Master Generative AI & Generative AI tools (ChatGPT & more) by Udemy | [Certificate](#) September 2025
- Build Generative AI Apps and Solutions with No-Code Tools by Udemy | [Certificate](#) August 2025
- Data Structures Algorithms by Cipher Schools | [Certificate](#) July 2025
- DBMS and MySQL Zero to Hero by Lets Upgrade | [Certificate](#) May 2024
- Full Stack Development by Board Infinity | [Certificate](#) May 2024
- Build a Thon Hackathon by Board Infinity | [Certificate](#) April 2024
- Responsive Web Design by freeCodeCamp | [Certificate](#) December 2023

ACHIEVEMENTS

- **Flexible group Booking System of Railway Tickets | [Link](#)** January 2025
Proposed a novel railway reservation system that enables group ticket booking under a single linked PNR even when passengers have different boarding and destination stations. Designed an AI-driven dynamic seat allocation model to keep group members seated together during overlapping journey segments, while calculating individual fares based on actual travel distance. The system eliminates PNR fragmentation, simplifies modifications and cancellations, and improves passenger convenience compared to existing IRCTC workflows.

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; CGPA: 7.0 Since August 2023
- **Mahavir Senior Model School** Ashok Vihar, Delhi
Intermediate; Percentage: 75% April 2020 - March 2022
- **Nav Bharti Senior Model School** Bharat Nagar, Delhi
Matriculation; Percentage: 77% April 2016 - March 2018
